SKILLS

Frontend

React 19 · Next.js · TypeScript · Tailwind CSS

Backend

Laravel 11/12 · PHP 8.3 · PostgreSQL · Node.js · Python · Redis · API REST

DevSecOps & Cloud

GitHub Actions · Docker · SAST (Semgrep) · SCA (Snyk) · Cloudflare

Monitoring

UptimeRobot · Fail2Ban

Vibe Coding

Antigravity (IA) · AI-Assisted Dev

- Linux Terminal

Michel AYENA

Fullstack Developer & DevSecOps Enthusiast

> *I don't just code features. I build **secure (SAST/SCA)**, high-performance, 100% Dockerized and production-ready SaaS ecosystems. Vibe Coding gives me speed, rigor gives me reliability.*

EXPERIENCES & FEATURED PROJECTS

O-229 Education — SAAS MULTI-TENANT

School dematerialization platform — Industrial architecture

- **Innovation:** Multi-tenant architecture with strict data isolation to guarantee confidentiality between institutions.
- **Security:** Systematic SCA audit of dependencies to protect sensitive academic data.
- **Impact:** Complete management of the school cycle — registrations, grades, reports, payments.

Laravel · Next.js · PostgreSQL (Schémas isolés) · Multi-tenancy · Docker

OpenZap — INFRASTRUCTURE COMMUNICATION

SaaS solution for orchestrating large-scale WhatsApp campaigns

- **Performance:** Asynchronous flow management via Redis & Laravel Jobs to process massive volumes without latency.
- **Security:** Anti-ban protection algorithms and securing of API access points (SSRF hardening).

Laravel · Redis · API WhatsApp · Jobs Queue · Docker

ProDesign — AUTOMATISATION IA

High-performance platform for creative agencies

- **Technical:** Rust + AI (Python) + React interface hybridization for ultra-fast and reliable rendering.
- **DevOps:** Environment fully containerized with Docker, non-root execution, Dependabot enabled.

Rust · Python / IA · React · Docker

O-229 Marketplace — E-COMMERCE

Robust electronic commerce solution connected to WhatsApp

- **Impact:** Deep WhatsApp integration to transform the shopping experience in Benin.
- **DevOps:** Automated CI/CD pipeline to Vercel with integrated vulnerability scanning.

React · Tailwind · GitHub Actions · Vercel

DigiFix — SERVICES DIGITAUX

Containerized application for service management

- **Architecture:** Modern stack Laravel (Backend) & React/Vite (Frontend) with perfect dev/prod parity.
- **Infrastructure:** Fully containerized with Docker — reproducible and secure deployment.

Laravel · React / Vite · Docker

EDUCATION & CERTIFICATIONS

Engineer's Degree / Bachelor in Computer Science — 2021 — 2024

Higher Institute of Technology

- Specialization in Software Development and Systems Security.
- Top of class in Algorithms and Cloud Architecture.

MY PHILOSOPHY — EXCELLENCE THROUGH RIGOR

01

SAST

Static analysis Semgrep on every commit

02

SCA

Continuous Snyk & Dependabot audit

03

Monitoring

UptimeRobot & Fail2Ban — 24/7
